

Object	Date	Time	Seeing	Trans.	Location	Equipment	Description
NGC 2451	3/12/2010	19:27	OK	OK	Deer Trail, CO - Moderately Dark skies.	20x80 Binoculars	About 20 stars of 2-3 magnitudes surround a very bright blue-white star. Pretty open and diffused.
NGC 2477	3/12/2010	19:27	OK	OK	Deer Trail, CO - Moderately Dark skies.	20x80 Binoculars	To lower left of NGC 2452 is this large, round, soft glow with a hint of member stars seen.
NGC 2546	3/12/2010	19:39	OK	OK	Deer Trail, CO - Moderately Dark skies.	20x80 Binoculars	About 20 faint stars. Fairly compact and circular in shape.
NGC 2627	3/12/2010	19:39	OK	OK	Deer Trail, CO - Moderately Dark skies.	20x80 Binoculars	To lower right of a bright field star and inside a triangle of 3 stars is this faint, round glow of this open cluster.
NGC 5128	5/12/2010	1:19	OK	OK	Texas Star Party. Ft Davis, Tx. Dark skies.	20x80 Binoculars	Nice, large round glow.
NGC 5139	5/12/2010	1:19	OK	OK	Texas Star Party. Ft Davis, Tx. Dark skies.	20x80 Binoculars	Nice, large round glow.
NGC 5286	5/12/2010	1:19	OK	OK	Texas Star Party. Ft Davis, Tx. Dark skies.	20x80 Binoculars	Small round glow.
NGC 5460	5/12/2010	1:19	OK	OK	Texas Star Party. Ft Davis, Tx. Dark skies.	20x80 Binoculars	Glow where open cluster is.
NGC 6124	5/12/2010	2:41	OK	OK	Texas Star Party. Ft Davis, Tx. Dark skies.	20x80 Binoculars	A nice large knot of stars with member stars easily seen.
NGC 6231	5/12/2010	2:41	OK	OK	Texas Star Party. Ft Davis, Tx. Dark skies.	20x80 Binoculars	A small knot of stars with member stars easily seen.
NGC 6134	5/12/2010	3:14	OK	OK	Texas Star Party. Ft Davis, Tx. Dark skies.	20x80 Binoculars	Larger, almost round glow.
NGC 6167	5/12/2010	3:14	OK	OK	Texas Star Party. Ft Davis, Tx. Dark skies.	20x80 Binoculars	Small, very dim glow.
NGC 6152	5/12/2010	3:14	OK	OK	Texas Star Party. Ft Davis, Tx. Dark skies.	20x80 Binoculars	Medium sized round glow.
NGC 6352	5/12/2010	3:48	OK	OK	Texas Star Party. Ft Davis, Tx. Dark skies.	20x80 Binoculars	Ghostly very faint circular glow.
I 4651	5/12/2010	3:55	OK	OK	Texas Star Party. Ft Davis, Tx. Dark skies.	20x80 Binoculars	Looks like a small circular ghost patch of light.
Harvard 13	5/12/2010	3:55	OK	OK	Texas Star Party. Ft Davis, Tx. Dark skies.	20x80 Binoculars	Extremely faint glow in area open cluster should be.
NGC 6541	5/12/2010	3:55	OK	OK	Texas Star Party. Ft Davis, Tx. Dark skies.	20x80 Binoculars	Looks like a globular. Round with center brighter than edges.
NGC 2547	1/23/2012	23:30	Fair	Fair	Commanche Springs Astronomy Center, Crowell, TX - Dark Skies	10x35 Binoculars	7 bright blue white stars. Big and very loose.
NGC 2670	1/23/2012	23:35	Fair	Fair	Commanche Springs Astronomy Center, Crowell, TX - Dark Skies	10x35 Binoculars	A noticeable, easy to see round glow. Looks like a comet.
IC 2395	1/23/2012	23:40	Fair	Fair	Commanche Springs Astronomy Center, Crowell, TX - Dark Skies	10x35 Binoculars	Dimmer. 7 – 10 stars surrounds a bright, blue white star. A bit compact.
NGC 1851	3/11/2012	19:56	OK	OK	Deer Trail, CO - Moderately Dark skies.	20x80 Binoculars	Bright, easy to see. Tiny. Looks like an out of focus star in FOV. Other stars in FOV are pin points. Brighter core area and bit of dim halo around it.
LMC	4/1/2016	20:06	Good	Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	Large, linear glow that fills FOV. Bright bar down center and the glow of stars all around it.

SMC	4/1/2016	20:07	Good	Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A small oval glow. Pretty uniformly lit.
NGC 2070	4/1/2016	20:08	Good	Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	Tarantula Nebula. A small, bright fuzz ball. Small, round brighter core and dim halo. Just above LMC.
CoalSack	4/1/2016	20:10	Good	Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A long (1/2 FOV) narrow void of stars in the heart of the Milky Way.
NGC 104	4/1/2016	20:15	Good	Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A small, round, bright core and round halo with member stars seen on halo.
NGC 3772	4/1/2016	20:42	Good	Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	Eta Carina - A long oval glow with lots of stars. Parts of glow distinct from main part.
NGC 4755	4/1/2016	21:27	Good	Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	See a triangle shape. Small.
NGC 2516	4/1/2016	22:01	Good	Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	Can see lots of brighter stars in a tight knot.
IC 2391	4/1/2016	22:09	Good	Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	Shows 4 stars in an arc nicely.
NGC 2808	4/1/2016	22:42	Good	Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A small, dim, round glow with brighter core.
NGC 292	4/2/2016	20:23	Very Good	Very Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A dim basic oval with 3 brighter knots to right and dim patch above separated from main glow.
NGC 362	4/2/2016	20:45	Very Good	Very Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A bright, out of focus star looking object.
NGC 1261	4/2/2016	21:06	Very Good	Very Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A dim, out of focus looking star object.
NGC 3114	4/2/2016	21:49	Very Good	Very Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A small, circular OC with 3 brighter stars and many dimmer stars. Easy to see.
NGC 3293	4/2/2016	22:36	Very Good	Very Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A small, tight knot of stars and can see member stars.
IC 2602	4/2/2016	22:49	Very Good	Very Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	23 stars easy to see. 1 bright and rest bit dimmer. Together and appear to be in two bunches. Boxy and rectangular shaped and scattered (not compact).
NGC 3532	4/2/2016	22:55	Very Good	Very Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	Can see its oval shape with lots of the brighter stars seen. Large, 2:1 oval.
NGC 3766	4/2/2016	23:19	Very Good	Very Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A small oval glow with many of the brighter stars easily seen on glow.
NGC 4609	4/2/2016	23:34	Very Good	Very Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	Above bright field star, see this tiny knot of very dim stars.
NGC 4833	4/2/2016	23:44	Very Good	Very Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A small, dim, circular glow.
NGC 5316	4/3/2016	00:27	Very Good	Very Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	Small, faint glow with hints of pinpoints on glow.
NGC 5823	4/3/2016	0:41	Very Good	Very Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A larger, oval glow with hint of stars on glow.
NGC 6025	4/3/2016	1:11	OK	OK	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	Can see a tall, thin glow of stars with brightest seen.
NGC 6067	4/3/2016	1:14	OK	OK	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A small circular glow with brighter members easily seen.
NGC 6087	4/3/2016	1:18	OK	OK	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A very small, very faint circular glow.
NGC 6362	4/3/2016	1:32	OK	OK	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	With AV, see a very faint circular glow.

NGC 6397	4/3/2016	1:34	OK	OK	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	See a small, round glow with brighter core.
NGC 6752	4/3/2016	1:40	OK	OK	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A small, bright fuzzy ball with brighter core and dimmer halo. Has bright field star at 2 o'clock and near.
NGC 2910	4/3/2016	19:50	Fair	Fair	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A small round glow with speckling of stars on glow.
NGC 5617	4/4/2016	00:40	Good	Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A long, 2:1 glow. Dim. Stars sprinkled on glow.
NGC 5662	4/4/2016	00:44	Good	Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A small knot of easily seen stars. Member stars easily seen.
NGC 5822	4/4/2016	00:52	Good	Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A larger, boxy glow.
NGC 5925	4/4/2016	00:58	Good	Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	An <u>extremely faint</u> oval glow.
NGC 6208	4/4/2016	1:14	Good	Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A small, <u>extremely faint</u> , boxy glow.
IC 2488	4/4/2016	21:46	Good	Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A small, oval glow with stars seen on glow.
NGC 2925	4/4/2016	21:50	Good	Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A small, tight knot of stars.
NGC 3228	4/4/2016	22:41	Good	Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A tight knot of bright stars.
NGC 4052	4/4/2016	22:58	Good	Good	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A tight little glow with speckling of stars on it.
Mel 101	4/4/2016	23:55	OK	OK	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A small dim glow.
Mel 105	4/4/2016	23:59	OK	OK	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A dim oval patch with speckling of stars on it.
IC 2714	4/5/2016	00:19	OK	OK	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A small, dim, circular glow.
NGC 4103	4/5/2016	1:10	OK	OK	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A very small, round patch with speckled stars.
NGC 4337	4/5/2016	1:14	OK	OK	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	See a hint of glow where this OC is.
NGC 4349	4/5/2016	1:23	OK	OK	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	A small, dim oval glow with stars sprinkled on it and other speckling.
NGC 4463	4/5/2016	1:29	OK	OK	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	All I see are the 2 brightest stars. No other stars seen.
NGC 4852	4/5/2016	1:36	OK	OK	Near Coonabarabran, NSW AUS - Dark Skies.	10x35 Binoculars	See a small oval dim glow speckled with stars.
